## Biden's tweet was attack on all gun owners; SAF's program fights back

BELLEVUE, WA – Joe Biden's Twitter message to former Congresswoman Gabby Giffords may read like a threat against one gun rights organization, but it is really an attack on every gun owner in the nation, the Second Amendment Foundation said today.

Biden pledged to work with Giffords on her extremist gun control agenda, and promised to "defeat the NRA," in the process, but SAF founder and Executive Vice President Alan M. Gottlieb said that's

just cover for a bigger goal.

"Joe Biden has labored relentlessly for decades to reduce the Second Amendment to rubble," Gottlieb stated. "He may attack one group by name, but his goal is to crush the rights of every gun owner in our country."

"By attacking the Second Amendment Rights of 100 million Americans," Gottlieb continued, "Biden is not bringing us together but dividing us further. If people take to the streets in protest, if vi-

olence occurs it will be his fault and he should be impeached for violating our constitutional rights and inciting violence. Maybe it is time to ban him from Twitter and Facebook!"

This week SAF is launching its new major advertising effort to recruit tens of thousands of gun owners into the 2nd Amendment First Responder program. SAF is running a one-minute message 40 times this week, on several national networks, to educate millions of law-abiding gun owners about the gun rights battle. This message will appear on DirecTV, Fox News, Fox Business, CNN, MSNBC, The Weather Channel, One America News Network, CNBC, HLN, Bloomberg and Dish TV.

This hard-hitting ad urges gun owners and viewers concerned about the civil right to bear arms to join the fight by texting 'PROTECT 2A' to '474747'. By texting, people can support SAF's educational and legal action programs to

protect their rights.

"Joe Biden isn't fooling anybody," Gottlieb observed. "He spent 47 years on Capitol Hill trying to turn the right to keep and bear arms into a regulated privilege. Now that he's headed to the White House, he thinks he will be able to complete his mission. We're working to swell the ranks of our 2nd Amendment First Responder project to stop him."

"We didn't start the fire, Biden did," he said.

The Second Amendment Foundation ([www.saf.org](http://www.saf.org)) is the nation's oldest and largest tax-exempt education, research, publishing and legal action group focusing on the Constitutional right and heritage to privately own and possess firearms. Founded in 1974, The Foundation has grown to more than 650,000 members and supporters and conducts many programs designed to better inform the public about the consequences of gun control.
