Cathoula Legals

Continued legals from page 10A

Official notice of such call of any principal installments of the Bond for prepayment shall be given by means of first-class mail, postage prepaid, by notice deposited in the United States mails, or via acceptable means of electronic communication, not less than fifteen (15) days prior to the prepayment date addressed to the Owner at his address as shown on the Bond Register.

SECTION 4. Registration and Transfer. The Issuer shall cause the Bond Register to be kept by the Paying Agent. The Bonds may be transferred, registered and assigned only on the Bond Register, which such registration shall be at the expense of the Issuer, and only by the execution of an assignment form on the Bonds being transferred. A new Bond or Bonds, may, upon request, be delivered by the Paying Agent to the last assignee (the new Owner) in exchange for such transferred and assigned Bond or Bonds after receipt of the Bond(s) to be transferred in proper form. Such new Bond or Bonds shall be in an authorized denomination of the same maturity and like principal. The Paying Agent shall not be required to issue, register the transfer of, or exchange any Bond during a period beginning at the opening of business on a Record Date and ending at the close of business on the Interest Payment Date.

NOTICE

Notice is hereby given, pursuant to Article IV, Section 21(D)(1) of the Louisiana Constitution, that on March 9, 2021, Entergy Louisiana, LLC ("ELL"), a public utility providing retail electric and gas service in certain parishes throughout the State of Louisiana, filed with the Louisiana Public Service Commission ("LPSC") its Application of Entergy Louisiana, LLC for Authorization to Implement Two Green Pricing Options, Rider GPO and Rider LVGPO, and Related Relief ("Application"). Through the

Application, ELL seeks to make available both Rider GPO and LVGPO to provide eligible customers a voluntary option to match a portion of their monthly electricity usage with renewable energy credits ("RECs"). For Rider GPO, participants will elect to match a set proportion of their electricity usage with RECs as follows:

Option
GPO Election Rate (\$/kWh)
Tier One Option 25%
\$0.0100 per kWh
Tier Two Option 50%
\$0.0075 per kWh
Tier Three Option 100%
\$0.0050 per kWh

Rider LVGPO will offer qualifying non-residential customers the opportunity to purchase a fixed, large volume of RECs each month to offset their electricity usage. Rider LVGPO requires at least a one-year commitment and the Monthly Rate for participation in Rider LVGPO will be the greater of: (i) \$0.0025 per kWh or (ii) the monthly average value for the S&P Global Renewable Energy Credit Index for Texas RECs, as of the current Month.

The GPO or LVGPO charges would be in addition to the charges paid by the customer under their otherwise applicable rate schedules and riders.

For questions and comments regarding ELL's filing, please call the LPSC toll free at (800) 256-2397. Additionally, the filing, including its attachments may be viewed in the Records Division of the LPSC at the following address:

Records Division
602 N. 5th Street, 12th Floor
Baton Rouge, Louisiana 70802
Telephone: (225) 342-3157

ENTERGY LOUISIANA, LLC

The BLACK RIVER WATER SYSTEM is currently in violation of the treatment technique requirements for minimum residual disinfectant level as set forth by the State (Part XII of the Louisiana State Sanitary Code). Although this incident is not an emergency, as our customers, you have a right to know what happened and what we are doing to correct the situation.

The Louisiana Department of Health (LDH) has determined that the presence of microbiological contaminants is a health concern at certain levels of exposure and requires the disinfection of drinking water to kill disease-causing organisms. Inadequately treated water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches. These symptoms, however, are not just associated with disease-causing organisms in drinking water, but also may be caused by a number of factors other than your drinking water. LDH has set enforceable requirements for treating drinking water to reduce the risk of these adverse health effects. Treatment such as filtering and disinfecting the water removes and destroys microbiological contaminants. Drinking water which is treated to meet LDH requirements is associated with little to none of this risk and should be considered safe.

We are required to monitor your water for the residual disinfectant level. This tells us whether we are effectively treating the water supply. During the compliance monitoring periods of (1/1/2021) through (1/31/2021) and (2/1/2021) through (2/31/2021) the BLACK RIVER WATER SYSTEM failed to provide the minimum residual disinfectant level in the treated water supplied to customers. The violation occurred because the treated water

chlorine residual was less than 0.5 milligrams per liter in over five percent of the samples collected in the water system in two consecutive months.

You do not need to boil you water or take other corrective actions. However, if you have specific health concerns, consult your doctor.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in public place or distributing copies by hand or mail.

This situation was related directly to the system construction project that is underway. Our operators have addressed any issues that may have caused the violations mentioned above. To ensure that compliance is maintained, we check chlorine residuals daily to ensure the safety of the water we deliver to our customers.

This notice is being sent to you by Black River Water System PWS ID# LA1025002

For more information please contact Black River Water System, Inc. at 318-744-0308.

Sincerely,

Black River Water System, Inc.
